

Directions and Map

Wetlands Learning Center

Teachers: Please note that when you and your class come to Fontenelle Forest to go hiking and dipping, you will be coming to the Hitchcock Wetlands Learning Center – NOT Fontenelle Forest Nature Center. This is the same location that the H2Omaha program has been in the past. Please inform your bus driver of the location and use the map below if needed.

Directions to Wetlands Learning Center

Take the Chandler Road exit off I-75 (Kennedy Expressway). Go east on Chandler Road; curve right onto Fort Crook Road. Turn left onto Childs Road East. Continue on Childs Road East through the housing development. The road will automatically turn into Camp Gifford Road and will change into a gravel road. Continue on Camp Gifford Road until it becomes a dead end, approximately 2 miles from Bellevue Blvd. The Wetlands Learning Center is on your right hand side, located just before the entrance to Gifford Farm. The parking lot is on your left.
