

Vertebrate Educator Trunk

Fish, Amphibians, Reptiles, Birds, Mammals...

Learn all about the five main groups of vertebrates with the *Vertebrate Educator's Trunk* designed for middle and high school students. What makes a mammal a mammal, or a fish a fish? Learn about the similarities and differences between the five groups, play vertebrate jeopardy, or examine skulls and skeletons. No matter which included activities that you use, students will learn a lot!

The *Vertebrate Educator Trunk* Includes:
